Garett AI – knowledge at your fingertips.

Learning that engages and inspires.

19 interactive educational applications based on artificial intelligence open up a fascinating world for children – from exploring space, to learning about the secrets of animals and plants, to solving mathematical puzzles, writing stories, creating images and exploring the extraordinary history of the world.

Thanks to the friendly question-and-answer format, learning becomes fun, with no room for boredom, pressure or limitations, and each experience develops logical thinking, stimulates creativity and boosts self-confidence.

Garett AI is a safe space created with the youngest in mind – content tailored to the child's age ensures that parents can be confident that their child is using valuable materials that support their development and inspire them every day. The Garett AI smartwatch is not just a gadget, but a personal guide to the world of knowledge – always at hand and always ready for the next adventure.
