GARETT

Vita 4G

Safety and technology

Garett Vita 4G is a smartwatch designed with the comfort, health and safety of older people in mind. It combines an elegant design with exceptional ease of use – it has a large, easy-to-read screen and an intuitive menu, making it extremely simple to operate.

It is an everyday companion that helps you take care of your well-being, reminds you of important activities and allows you to stay in constant contact with your loved ones. It makes every day calmer and safer.

Clear 1.83" display - protected by Gorilla Glass
(Adapted and intuitive interface for seniors)

Voice and video calls
(Possibility to communicate with family)

Built-in fall down sensor
(Detection and notifications on guardian smartphone)

SOS button
(Emergency call with one click)

GPS location / GEOfence
(Verifying where the watch is located)

Automatic health measurements
(Additional alerts and reminders about medicines)

Pedometer / Sport modes
(For tracking daily activities)

Fall sensor and SOS button

The built-in **fall down sensor** automatically detects dangerous situations and notifies loved ones.

In addition, the user can activate an **SOS call** with a single click, sending a signal indicating the need for immediate assistance.

GPS location and GEOfence

The smartwatch is equipped with a **GPS module** that allows you to track the user's location, giving loved ones peace of mind and confidence.

The **GEOfence** feature allows you to set up a safe zone – when the user leaves it, the carer automatically receives a notification on the mobile application.

Slim design

The slim **13.3 mm** design fits perfectly on your wrist, ensuring lightness and comfort every day.

Gorilla Glass protective glass

The display is protected by **durable Gorilla Glass**, which is resistant to scratches and accidental impacts.

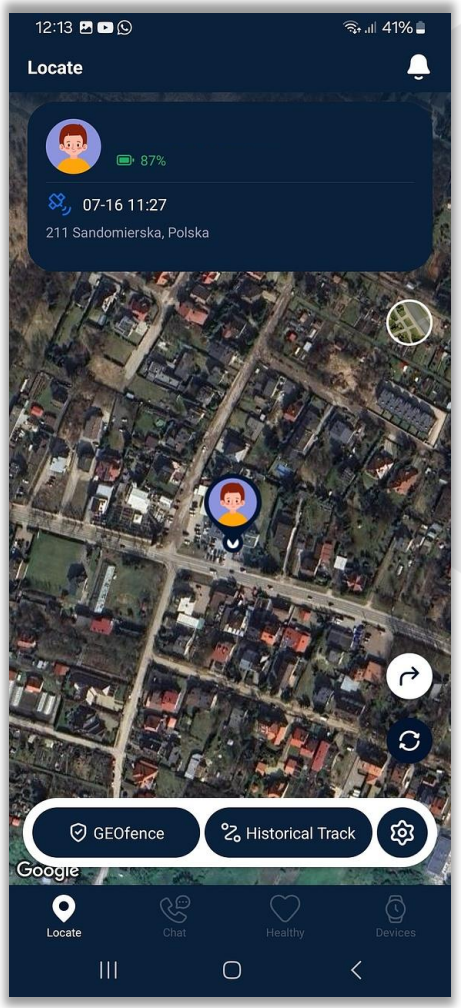

Garett Care App

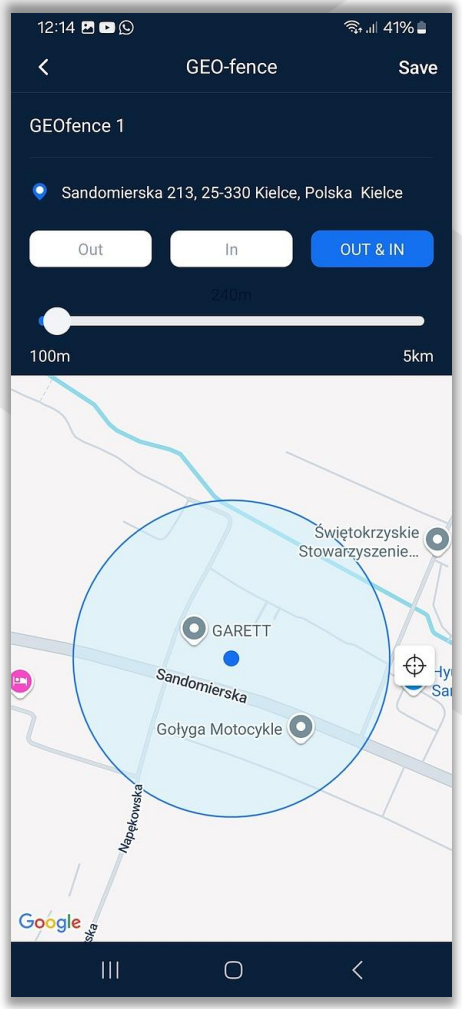

GET IT ON Google Play

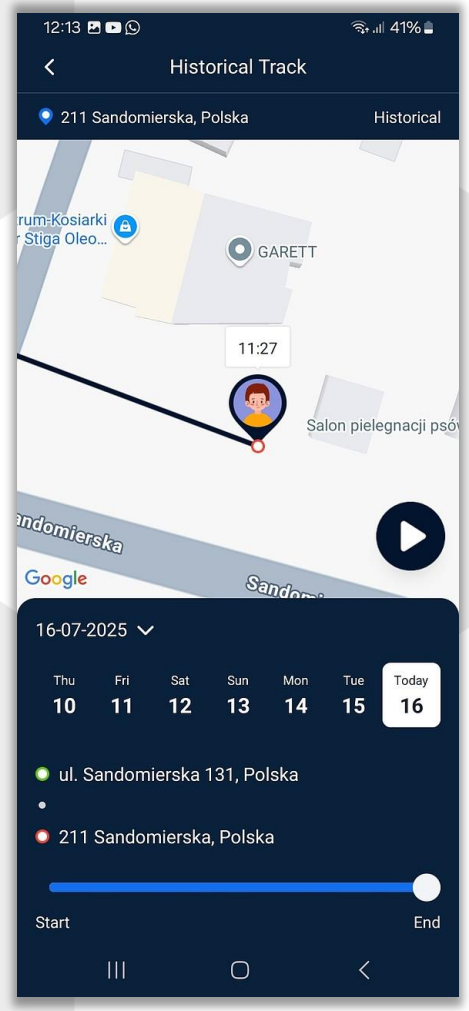

Download on the App Store

Manage as you wish

The **Garett Care** app for Android and iOS allows you to fully manage your watch. It's a command center that's always at your fingertips.
