⚠ SAFETY WARNING

Failure to follow safety procedures may result in explosive force sufficient to cause serious personal injury or death. Use proper rim. Refer to Vehicle Manual. Clean rim. Lubricate rim and beads. Install valve core. Lock wheel on mounting machine or place in safety cage. Use extension gauge and hose with clip on air chuck. STAND BACK. NEVER exceed recommended PSI to seat beads. After beads are seated, adjust to recommended inflation. Read the tire sidewall for specific warning applicable to the tire you are mounting.
